

C-20251

(4). TITLE.:- BIGGEST CAR.

Picture. :- America always did things on a big scale. ...  
Now comes this - claimed to be the biggest automobile in  
the world. ... It is fifteen times the size of an ordinary  
car, and is complete in every detail.. ... Here the builders,  
and a few friends, look like ants crawling over it ! ... Like  
any other car, in --

--that part of the world --

--it has to have its Police Ticket. ... A large-size one  
meets the situation ! ...

One might be inclined to ask how it was built, when,  
and also, where, but please - oh ! please ! don't ask why !
