

13511-C

(2).

TITLE.:- LAUNCH.

Picture.:- Lady Lewis, wife of Sir Frederick Lewis, chairman of Furness Withy's, names the new vessel, Monarch of Bermuda. ... Away she goes, over twenty-thousand-tons slipping down --

--into the Tyne as easily as if she were only a little canoe. ...

The new liner is to be --

--a floating palace, equipped with every possible luxury for the 857 passengers she will be able to carry on her trips from New York to Bermuda. ...

All those who have been engaged on her construction for so long, are sorry that the job's done. ... She's British, every ounce of her, so you can bet she's good !
