(3). TITLE:- CHELSEA OF THE WEST.

Picture:- We've called it "Chelsea of the West", but St. Ives is not a bit like Chelsea really, except that, perhaps, there is as much artistic temperament to the square yard.

John Park the famous landscape painter, having sent three of his efforts to the Academy, --

--goes down to the sea for more. ... He works mostly outdoors, transferring nature to canvas.

This skilful artist is Moffat Linaner, President of the St. Ives Society. ... I don't know if he does it for a living, but he looks well on it.

G.F. Bradshaw works from his studio, his subject in this instance --

--is a lobster fishing-boat all 'setf, and ready for a trip.
