2).

TITLE.:- FRENCH MILITARY TOURNAMENT.

Picture.:- The French Military Tournament is like a Jack-In-the Box - it opens with the Spring ! ... It actually opens the season. ... The army's best equestrians put up a show which compares very favourably with our own Military Tournament at Olympia.

Here, at least, is one show which bars motor cars - except in the garages outside the hall. ... The horsemen make a thrilling picture in the ring of the Grand Palais.

One of the outstanding features is the fine jumping by officers of the Lancers. ... They're having --

--a little "Grand National" on their own. ... Big crowds are attracted to the magnificent display. ...

The French have reason to be proud of their superb horsemanship.

Let's hope they'll never be required to do anything more warlike than this !
