(8). TITLE:- FASCISM ANNIVERSARY.

Picture.:- The ceremony takes place within the most magnificent ruins in the world - the nineteen-centuries-old Colosseum.

Standards from all parts of the country are there, brightening the scene within the ancient Flavian amphitheatre.

Fascism is twelve years old to-day - for it was just after the war that the first enlistments were made by --

--Mussolini. ... To-day, Signor Giurati, the Party Secretary addresses the great gathering.

His inspiring words are received with tremendous enthusiasm, by the thirty-thousand young Black Shirts. ... Few countries in the world can present such pictures of intense and thrilling loyalty as Italy.

Fascism has done much to help the nation "keep its end up" in the world during the trying years which followed the great European conflict. ... There are other nations who might well take a leaf out of Italy's book !
