

(2).

TITLE:- WONDER SHOW.

Picture:- It looks rather like one of those model suburbs we see advertised in the papers. It's not easy --

--to believe that all these "desirable residences" have been erected inside Olympia especially for this Exhibition. Yet it is so, and many of us --

--are already wondering how we can make our window-boxes look like this !

It's enough to make a flat-dweller jaundiced with jealousy.

This is Monopolis, the city of the future. Perhaps, after all, we've got something to be thankful for, in spite of the hard times ---

--of 1931. Joking apart, it's an exhibition full of interest coupled with many bright ideas for home-lovers.
