

(9).

TITLE.:- SPEED BOAT RECORD.

Picture.:- Whoo-p ! Like a shot from a gun !

Miss America the Ninth churns up the water into a froth which would put some beer to shame !

This is the life ! A hundred, and on water !
That's going !

Even an aeroplane is hard put to it, to keep up with Gar Wood in his wonderful boat which is now actually speeding--

--at over a hundred-and-two miles an hour ! Faster than ever man moved on the water before ! By this great burst Gar Wood recaptured for America the world-speed-boat-record which the late Sir Henry Segrave won for Britain on Lake Windemere last June. The terrific speed of Miss America gave --

--the time-keepers and checkers something --

--to think about !

Our own Kaye Don, at Buenos Aires, decided that Miss America's triumph should be short lived, and straightaway proceeded to regain the record by doing a hundred-and-three-and-a-half.

Hard luck, Gar Wood ! Have another go - and good luck !
