TITLE.:- SKY IT WITH FLOUR.

Picture.:- At the word "Go !" they charge like profiteers, and in less time than it takes to tell, the air is filled with flour dust, choking in its intensity.

It's good-natured "scrapping", but that doesn't make it any the less --

--exciting. Some of them get black-eyes - well, that's good for the doctors.

Others lose a tooth or two - more work for the dentists ! And many lose their --

--shirts ! So it's all good for business, although I don't suppose they --

--look at it that way ! I wouldn't mind being in the shirt trade over there !
