

135818-C

(6). TITLE:- GLIMPSE INTO THE FUTURE.

Picture:- He only wants a big airship, a moderately large--
--ship of the sea, and an aircraft carrier ! Given
these, --

--he claims that he will combine the three into one --

--vessel of many uses. His model took over a
year to construct, so he must have --

--faith in the idea. I'm inclined to think that --

--he has overlooked something ! What about hitching on --

--a submarine, and a set of wheels ?

Well it might come to this sort of thing in the --

--years to come, but I don't think it'll worry me much !
