

(9). TITLE.:- ANOTHER RECORD.

Picture.:- She's the fastest young woman in Europe - on the typewriter !

She does 900 taps a minute - that's an average of 130 words in sixty-seconds, --

--while the speedometer seen here, registers every tenth tap.

Now see her changing her paper - - - you probably didn't see it, but she did it !

It is said you can't do two things at once ! Miss Mitchell --

--does three ! Reads the news, types it, and carries on a conversation in French all the while !

Being blindfolded doesn't worry her, for there are no letters on the keys anyway. She still types quicker than most ladies can talk !

If she were in an ordinary job, she'd--

--be able to go away for the weekend by about Tuesday afternoon !
