

(5).

TITLE.:- ROOF TOP SPEEDWAY.

Picture.:- Mr. Morehouse "put on" his baby car for a trial run, but what with policemen's --

--feet getting in the way, and nearly being run over by --

--motor-cars, he decides that his "roller-skate" will be safer --

--off the streets ! How about --

--up aloft ? Take the lift, sir !There's plenty of room at the top.

Up it goes ! First stop, Clapham Junction ! Tenth floor - twelfth - fourteenth - sixteenth - eighteenth -

--and so on until Morehouse is satisfied that his midget is safe, from the --

--perils of the streets ! Out of the lift, --

--and on to the roof he takes her.

There's no chance of her being trodden on, up here !.... This little ---

--"bug" has actually achieved over a hundred miles an hour, on a straight run, at Indianapolis; but the --

--driver hasn't made his will, so --

--he's not attempting any fancy speeds up here. Besides, the fellows who sweep the roads have enough to do as it is !
