TITLE:- AIR VISITOR.

Picture:- Rain is not the only thing that "drops" on the lawn of the White House. An autogiro does it, and shows how easily this new type of --

--plane can land in a small area. Jim Ray, the pilot of the --

--machine, is greeted by President Hoover. The visitation from the air is arranged --

--so that Ray can take back with him the Collier Trophy,--

--for the best American aerial achievement of the past year.
