TITLE.:- LADIES FOOTBALL.

Picture.:- What a shock our grand-parents would get if they knew that girls played football ! These French lasses are --

--looked after by Carmen Pomies - I wonder who looks after her !

The English girls are the famous Preston Ladies ' team, who have done so much for charity.

Before long the home team show the visitors they're going to teach them how --

--the game should be played ! That's the first part of the lesson !

They don't pull each other back by the hair, or anything like that, it's just a real soccer match.

G O A L ! That's just to prove it !

The girls put plenty of kick into the game !

Any man who marries a football-girl deserves all he gets, but it's a big risk !
