Picture.:- On the stroke of eight o'clock in the morning, forty-eight cars start in the double-twelve-hours race. Away they go for the first twelve-hours spell! They have to do this on two consecutive days. Early in the --

--going to make a good show. Each car has two drivers, taking three-hour shifts in turn. This goes on till eight o'clock at night.

Then, at eight next morning off they go again for another twelve -hours stretch. Who can blame them if they welcome the --

--first four places - the winner being the Earl of March, on the left.

He and G.S. Staniland, the flying ace, get the trophy, not to mention --

--sundry gold cups etc and a couple of hundred guineas good for two days work!!!
