TITLE.:- M.C. GRAND NATIONAL.

Picture.:- They are facing one of the stiffest courses ever devised to try the tempers of motor-bike drivers !.....The--

--first of their real trials is called "Stops 'em". It does that very effectively, but the "pushfulness" of the drivers overcome such difficulties, and on their way they go !

Now comes "Wets 'em" - they really want a raft here !... "Stops 'em" and "Wets 'em" lead --

--to Throstle's Nest, as tough a section as you could wish for. He's off ! I won't tell you what he said !.. I can't understand --

--these chaps taking on this kind of thing, when they might be dashing along the highway at about a --

--thousand miles an hour, with a pair of silk stockings - filled, of course - dangling from the pillion seat. It means "the rocks" either way.
