(5). TITLE:- CLERICAL CAVALCADE.

Picture:- I don't know how a young cleric would get on if he couldn't ride a horse; for they --

--are expected to be equestrians, at least for this one day!...  
It's a very --

--old established custom for them to ride to the Market Place in this manner !

So they enter priesthood "four-footed" as it were!.....  
It doesn't appear to deter the young --

--men from hearing the call of the church. .... Most of them handle their mounts --

--"as to the manner born", ..... Priests in full vestments accompany the younger --

--men on their way to be ordained. .... Only once a year,--

--and in Switzerland, is it possible to witness this rather striking sight of scores of clerics on horseback !
