

(1). TITLE. :- FLIGHT OF MEMORIES.

Picture.:- Wives and sweethearts attend in support of their men-folk - just to see that they behave themselves, I suppose ! ..... Most of the men are those who gave air raiders "gyp" in the --

--dark days of the war ! ..... They are off for a "flip" over London --

--under rather different conditions to their war-time adventures ! .....

What memories must be passing in their minds as the great liner takes the air ! ..... Perhaps they remember how --

--they used to turn out in the middle of the night, to battle with the enemy far above the darkened city.

Their efforts were highly successful, too - as some of us know ! They're still here - and so is London - so all's well !
