TITLE.:- FIRE DEMON.

Picture.:- Nobody knows how it started, but it's little short of a --

--tragedy to these people of the Phillipines, who have had more than --

--their share of the world's troubles. The firemen did their best --

--but even poultry population found itself with nowhere to roost. The fire raged for a day --

--and night, helped by a strong wind. The wooden structures --

"went up" in no time. Over a thousand of them had ceased to be when, at last, the fire demon was conquered.
