

15/10/21

(8). TITLE.:- WORLD IN MINIATURE.

Picture.:-The Exhibition is formally declared open by the --
--Mayer, Dr. Sahn, (former President of Danzig Senate), --
--before a big audience of commercial chiefs.

The Exhibition is Germany's big effort to show --
I-the world how she is keeping up with the times.

Many big undertakings are here in miniature.

Even the railway on which we --
--make a tour of the exhibition is a pocket-edition --
--of a real one, but it enables us to --
--give the whole affair the "once over", (as our --
--American cousins say), in "double quick" time ! Big
mechanical contrivances make the little --
--train appear even smaller. It looks as though --
--it has slipped out of the Land of Lilliput.

I wonder if the fares are small in proportion ?
