

(9). TITLE:- MECHANIZED MANOEUVRES.

Picture:- Uncle Sam believes in having his manoeuvres as near to the real thing as possible ! ..... A big battle of tanks is - WOW ! - That was a near thing ! ..... If this--

--sort of thing doesn't "put the wind up them" --

--they should be able --

--to - OOH ! - Who wants some scrap-iron ?

They have to take the rough road, too ! ..... Look at this one ! ..... OUCH ! ..... That gave the occupants a jolt ! .....

"Let nothing stand in the way of progress !" would make an appropriate motto for the tanks ! ..... Hills certainly do not appear to worry them !

CRASH ! No more the fields --

--to roam ! ..... Its day's work is done !

The crews get used to the idea of bumps and bruises, this way ! ..... They should line these things with cushions ! .....

Ha ! Gate-crashing ! ..... Even a Council House,--  
--couldn't "stand up" to this sort of uninvited guest ! .....

If ever there's another war - it'll be the Air Force ,  
for me !
