(3). TITLE.:- THREE COUNTIES SHOW.

Picture.:- It represents all that is best in the farming world of the three counties, Hereford, Worcester, and Gloucester.

They are becoming truly mechanized "down on the farm".

These gadgets are the "Side-rake", the "Swathturner", and the "Hayloader", all destined to help the farmer to finish his job earlier. It'll give him more time to add up his profits !

Some of the finest horses in the country are here to pass under the critical eyes of the judges.

They know the "right stuff" when they see it, in these parts !

The same applies to the dairymaids - unsurpassed anywhere for their comeliness !

And the beef ! Well, this splendid-looking "joint" carries off the junior --

--championship for Hereford. I'd prefer to meet him on a dish, than in a field !
