(4). TITLE.:- ROSES ALL THE WAY.

Picture.:- "Flaming" June, (a sad misnomer to we poor mortals in our wet little island) --

--really means something to California ! AS witness the glorious weather on the --

--occasion of the Santa Jose annual "Fete of the Roses". Mighty floats carry great masses of beautiful --

--blooms in gay procession through the streets. Thus does California honour the first civic Spanish Colony of the sunny State.

The attractiveness of the perambulating rose bowers is further heightened by their very charming passengers.

It's almost a shame to use up so much beauty in one eyeful.

The Santa Clara Mission is represented by a perfect model carried out entirely in roses.

It's certainly "roses all the way" during the celebrations.. Millions have been used --

--to make these very wonderful pictures. Why, you can almost smell 'em !
