(3). TITLE.:- BABIES PHYSICAL JERKS.

Picture.:- Doctors say that leaving infants in one position all the time might lead to all kinds of physical troubles.

So mothers are instructed by Charlotte Wall at an American hospital in the correct way to give the other side an even exposure. None of them seem to be crying which is a sure sign they must be enjoying it. They think it is some kind of a game.

All these movements have been scientifically worked out for the benefit of --

--the coming generation. The bigger the baby the bigger the trouble.
