TITLE:- FOSTER MOTHER.

Picture:- "Tibbs" doesn't believe in all this "unwanted children" stuff !

So when she finds a little family of deserted "bunnies", she calmly adopts the lot (!), --

--and proceeds to give every one of them a bath !

They are carefully watched over by their new foster-mother with --

--a tenderness altogether remarkable in such mixed company. ....  
The --

--family are all doing well, thank you ! ..... I shudder to think what --

--will happen if the real mother comes back !
