(6). TITLE:- TOY SOLDIERS.

Picture:- Boy Scouts of St. Albans, determined not to be outdone by such displays as the Royal Military Tournament, the Aldershot Tattoo, and so on, produce their very own Tattoo on novel lines. Every one is a wooden soldier, but by no means a block-head !

It's a good way of raising funds for their organisation, and it proves itself to be quite an attractive "money magnet".... As they march and counter-march --

--in true wooden-soldier style, our cameraman decides that he can show you more of them in less time.

Here's how ! -----

That was ten times quicker than the boys did it, --

--and - ow ! here's some more -----

Down they go ! You'd almost think they were tired by that enforced camera-hustle !
