

(6). TITLE.:- UNREHEARSED THRILL.

Picture.:- A parachute drop is one of the events on the program provided for the entertainment of visitors to the famous resort. The plane climbs to a good altitude - for height means safety in parachute dropping.

Well up over Atlantic City it goes before making its way out --

--over the water. Everything is ready for the drop. ... The parachutist waits for the pilot's signal, and --

--oho ! A good jump ! Not much trouble for the parachute to open - and the plane dives for a landing !

All's well with the parachute.

A nice "cushy" drop into the soft waters of the Atlantic Ocean.

But what of the plane ? Trouble ! Hey, you're not in a submarine !

It's nothing serious ! No harm done, except to the aeroplane ! The spectators got --

--very much more than they bargained for - and so did the pilot !
