TITLE.:- WATER POLICE.

Picture. :- After the Motor Police, the Water Force!.....  
They hold a big

demonstration before Mr. and Mrs. Vienna, and all the little  
Viennese. .... Bobbies will

now be able to chase wrong-doers on the water as well as land,  
and can walk on the water to the aid of those in distress !

So if you ever find yourself in the middle of the River KXXXX,

don't call out "HELP!" -- (which means nobody in particular)--

but shout "POLICE!" -- and there you are !

They show they can swim, too ! Look at 'em ! -- I wish  
this were in Switzerland, for then I could call it

A Swiss Roll, and "take the cake" for telling you a good story!
