

C-150851

(1). TITLE. :- PYROTECHNICS.

Picture. :- Brighten our darkness -- must surely be the motto of all concerned with the firework

display at the Crystal Palace. The mammoth fire-wheels make attractive pictures, which hold

spell-bound the big crowds assembled in the grounds and on the terraces.

A couple of "fiery" elephants amuse everybody with a game of ball. A sparkling "act" in very truth ! Their trainer is having a pretty hot time. The whole of

the universe is set alight for the "War of the Worlds" in which Mars makes a determined attack on the Mother Earth.

This show will start some of the spectators "saving up" for

the Fifth of November. Ooh ! I'd like one like that for my own backyard !
