

(6). TITLE. :- SULTAN OF MOROCCO.

Picture.:- The Sultan first visits the President of the Republic at the Chateau of Rambouillet, his residence for the summer months. He is --

--received by State officials and conducted to Monsieur Doumer who awaits his distinguished guest in the Chateau --

--gardens. The white flowing robes of the Sultan and his companions contrast strongly with the garb of his European hosts. Naturally, Prince Sidi Mohammed wants --

--to see the French Colonial Exhibition at Vincennes. His own coloured guard, brought especially from Morocco for the Exhibition, welcome their ruler with a picturesque march past --

--to the accompaniment of the spirited strains of La Marseillaise.

The Sultan makes an exhaustive tour of the fine buildings, --

--expressing particular delight at the splendid pavilion and exhibits of his own domain. The mounted spahis form a striking background to the party as it makes its way to the magnificent Bronze Tower, one of the --

--thousand-and-one attractive sights of the Exhibition. The Sultan's visit is certain to do a lot towards cementing good relationship between Morocco and France.
