

(6). TITLE:- WHY THEY WERE LATE.

Picture:- The train had just started to cross the trestle when it gave way in the --

--middle. No one was hurt -beyond a few bruises. What --

--really hurt most was that the --

--passengers missed half-a-day's work ! They were lucky, though, for the --

--coach might have gone over the side with disastrous results. Only a log of --

--wood, which got stuck under the engine, prevented an appalling tragedy.

The workmen were lucky !..... I wonder what they will back in next year's Derby !
