

(2). TITLE.:- HIS NEW ART.

Picture.:- Teddy himself is quite an artist, but he felt the urge for this other "art".

He is quite serious about it, too ! ..... This doesn't look much like the "artistic" temperament !

His training bouts are so realistic, that you wouldn't be surprised if some of his sparring partners wished they had Teddy's old job of landscape-painting! ... It'd be easier ! .....

He is not practicing to get up before the "count of ten" ! ..... It is only one of the exercises insisted on by his trainer, Johnnie Thomas, --

--who keeps his protege "up to scratch" with a spirited "bout". ..... Teddy looks as though he's trying to "pay" his account - if there's one due !

Well, he has given up painting for "pasting" and is doing well in --

--his new art - and I'll bet his favourite colour is RED !
