TITLE.:- FLOWER SHOW.

Picture.:- Come for a stroll through the "world's largest flower show" - it's only about a mile ! .....

Here we have the Rock Gardens. .... You may be able to pick up a hint or two. .... Perhaps you'd like to take one home for the wife ! .... Rock plant, I mean, not Rock !

After that we'd better go under cover !!

This avenue of roses is said to be worth twelve-thousand pounds ! ..... That's real money ! .....

More than my taxable income from all sources ! .....

The Water Lilies are blooming - and so they jolly well should bloom, with the "blooming" weather we've had this summer !

We've by no means been all over the show, but it's enough to make me go home and chuck my window-box down amongst the dust bins !
