TITLE:- BEAR IDEA.

Picture:- They're a long way from home, having been brought from --

--the Polar regions to provide amusement--

--for visitors to the Blumengarten. XXXX See-saw's good fun for them as --

--well as for the spectators. XXXX

They are docile creatures - at least, so it appears - but I --

--know which side of the cage I would prefer ! XXXX

They're almost human in that they like something out of a--
--bottle. XXXX The only difference is Bruin lies down first !XXX

Ha ! there's something brewin' ! XXXX Up they go -

And now for "Shooting the Chute". XXXX Once they get --
--going they - Brhh ! - they make a splash !

They don't all "play fair" though ! XXXX

Swish ! XXXX Ha ! Ha ! XXXX "Some" diver ! What ?

The kiddies yell with delight when they --
--see this - Ooh ! - "back number".

It's just the "bear" idea of fun in a swimming pool !
