TITLE .- MUSSOLINI REVIEWS.

Picture:- The idol of the Italian nation gets a tremendous welcome on arrival at the review ground, --

--where no less than fifty-thousand youngsters, who have taken the Fascist oath, march past their leader. XXXX

The youth of Italy worship Mussolini. To them he is the embodiment --

--of everything that goes to make a nation a power in this--

--"little old world of ours". XXXX There's little wonder if the heart of the --

--great man swells with pride at this mighty parade of --

--homage. XXXX Wave on wave the young Fascisti come on, "thrilled to the marrow" --

--by the sight of Mussolini, who occasionally strokes the silky coat of his mount - giving --

--proof that he has a soft spot in his heart for animals.

Now you know there's a naval section of the movement. XX
It seems they can have their Fascism whichever way they prefer - wet or dry !
