

(6). TITLE.:- PLOUGHING MATCH.

Picture.:- Farmers and farm-hands are here from all parts to see the competitors plough their--

--lonely furrows across the fields. XXXX The splendid old horses make an idyllic rustic picture as they tear across the earth after the prizes to be won for the--

--best work. XXXX As they plod along at their allotted task it comes as rather a sad thought that these fine old fellows gradually are being pushed out of their job by petrol driven ploughs. XXXX

Another competitor goes off on the straight and narrow way. XXXX There are twenty-four--

--teams in all, and their work is of the highest order. XXXX Wouldn't an artist just love to transfer this picturesque scene to canvas ? XXXX I know I would --

--if my working-tools were paint-brush and palette, but unfortunately I'm condemned to word-pictures ! XXXX

Although they don't get much excitement out of life - every day is a "hey-day" for them !
