

(1). TITLE.:- LONG TREK.

Picture.:- Ninety of these fellows are going to be disappointed (!), for there can be only one "first" - barring dead-heat, of course. XXXX Our American friends call them "Bunioners" - I suppose that is because there isn't a --

--bunion amongst them ! XXXX They are heading for Atlantic City, thirty--

--miles away (!), and when you're on a hike like that,--

--every mile seems longer than the last ! XXXX Canada is--

--well represented in the "advance guard", with Hank Cieman stepping--

--on it with such effect that most of the others don't know what he looks--

--like from the front ! XXXX He's nearing the finish now, with the other ninety merely "also rans". XXXX His--

--time is 5 hours, 24 minutes, 10 seconds. XXXX A "walk--

--over" ! XXXX Another reason we should be proud of Canada !
