

(3). TITLE:- ON TOP OF THE WORLD !

Picture:- It is no place for the nervous ! XXXX And these three fellows have left their--

--nerves, (as distinct from their "nerve"), at home. XXXX They are out to conquer--

--the "Iglu Needle" - the most difficult of all in the Carpathians. XXXX Sooner than--

--than me ! XXXX That rope has some responsibility ! But it doesn't seem to worry our intrepid--

--friends! XXXX Now they are on the "roof of the universe", with,--

--down below, some very "pointed warnings" against falling ! XXX Rising in the world never was easy ! XXXX

They make good progress, with "never a slip twixt the foot and the cliff" - - - just as well !

The top at last - with "excelsior" meaning just nothing to them ! XXXX There is quite a lot of satisfaction in a climb of this sort ! XXXX There's no need to--

--keep your eye open for speeding cars or your tailor, so you can dodge them ! XXXX All your troubles are a long, long, way down ! XXXX

We leave them "sitting on top of the world", nearly a mile and a half above their next square meal !
