TITLE:- COURSING.

Picture.:- There may be two minds as to whether or not coursing is a good sport, but there is no--

--doubt about it being thrilling ! XXXX As soon as the hare is sighted, the greyhounds are away like lightning ! XXXX It would have to be a "super" hare to outdistance this pair ! XXXX But he is clever, and gives the dogs the run of their lives. XXXX

A big crowd is present to watch the sport, and a thrill of anticipation runs through them as --

--another pair of dogs are released. XXXX One soon "goes away" from the other - just as though they were on a track ! XXXX After a terrific straight run they come up with their quarry. XXXX And now a real race - short and sharp ! XXXX

After each "course" the bookmakers have a busy time. XXXX They, at least, are winners ! XXXX

Off ! go another pair, with a magnificent "burst". XXXX The rate they cover the ground is marvellous ! XXXX How could even a hare expect to win in a race of this sort ? XXXX It doesn't happen !

They are fine looking fellows - as keen as can be, and ready for more, even now !
