(8). TITLE.:- ARMY RAISES ITS VOICE.

Picture.:- Whatever else a peace-time army can do without - it must have petrol ! XXXX For most vehicles are motor-driven in these times. XXXX Artillerymen think--

--more of horse-power than horses, nowadays. XXXX Of course, it has made a striking difference to the rate that an army can move when put to it - forwards or backwards ! XXXX I'm all--

--for mechanization, for I can talk about "canned" armies - not that whole armies could be ! Someone's sure to be sober !

While the guns speak - I'll shut up !

(Effects to last shot).

They made a mess of this armour-plate alright ! XXXX
The kids are in a hole, as usual ! XXXX May those guns never raise their voices in anger !
