(7). TITLE:- FIESTA DE LA RAZA.

Picture:- National Fete Day in Madrid finds big crowds in the streets--

--out to celebrate the occasion. XXXX Don Pedro Rico, the Mayor of Madrid, will surely forgive me if I--

--say that he has weight on his side ! Joking apart though, he is a "big" man in more senses than one, for he has--

--gained the respect of the younger generation, as well as their elders ! XXXX It--

--takes a great man to do that, as most of us know ! XXXX

The girl scouts are here, too, to add their tribute to Don Pedro, with whom are--

--the leaders of every school of thought in Spain to-day, as well as--

--representatives from all Spanish overseas relations - a sort of family gathering, with the troops there just in case there should be any squabbling ! XXXX
