

13854-C

-2-

(2). TITLE.:- NO MORE THE SEAS.

Picture.:- "Carysfort" was completed in 1914, and now her career is ended. XXXX Bit by--

--bit she is being torn apart and turned into scrap-metal. XXXX She's likely to turn up again in the form of roller-skates or scooters - so really her days of usefulness are not done ! XXXX Workmen--

--are hard at it, giving her the sort of "bashing" our enemies would like to have--

--given her in her active service days ! XXXX Fashions in naval construction change almost as quickly as those of milady's wear,

--so, you may guess, seventeen years is a ripe old age for a ship of war !

It took two years to build "Carysfort", but she'll be in pieces in much less--

--time than that ! XXXX She was a "fast young thing" in her day. (like others--

--of her sex I've heard about !) XXXXXX Still, it's all over, and soon all that'll be left is her name !
