(3). TITLE:- FIRE IN FOREST.

Picture:- One of the consequences of a child playing with fire ! XXXX

In a few minutes the little homestead was ablaze, and--

--quite beyond the powers of the villagers to--

--save the doomed cottage. XXXX It was as --

--much as they could do to rescue the live-stock. XXXX

Pathetic attempts are made to save the --

--simple furniture, and what-not, but more pathetic still are the efforts--

--of the old woman tenant to "do her bit" to help. XXXX

At long last the fire-brigade makes its way to--

--the scene bringing along the means of pumping--

--water from the river on to the blaze. XXXX They soon--

--get to work, but it is too--

--late to save the building. XXXX Eager--

--helpers give a hand in the hopeless --

--cause. XXXX And so another of life's little--

--tragedies passes into history !
