

(1). TITLE:- GREAT ROUND UP.

Picture:- You'll probably never see such a thing again, for it is the last grand round-up--

--of the big herds of the West. XXXX Forty-thousand of them, - and most likely they'll all finish up--

--packed in air-tight tins ! XXXX It's a long, long trail for them, and they mustn't be hurried, or they'll lose weight - and that would never do ! XXXX On the trek the great herd has to be "watered," --

--so artificial water-holes are prepared in advance. XXXX But the steers aren't fussy about what they drink from !

That's an idea not confined to steers alone, I fancy !
XXXX Well, as --

--I said before, I doubt if you'll ever see so many bullocks in one eyefull again. XXXX About fifteen million pounds of beef heading for the "great beyond" !
