ROLLER HOCKEY - German Airmen introduce
new version of old game.

-Berlin-

(7).

Picture. :- A score of years ago, roller-skating was all
the rage throughout Europe,--

--and now a revival seems to be--

--coming along. XXXX Aviators at the Berlin Aerodrome
find that it is--

--great sport for keeping them fit for--

--their job. XXXXX There are plenty of thrills (GOAL !).
XXXXX ----- plenty--

--of thrills, and quite a few spills in roller--

--skating -hockey. XXXXX But "airmen don't care" - - so
long as the burises do not --

--make it too uncomfortable for them to sit down in the
cock-pits of--

--their aeroplanes ! XXXX When played on ice, this game
is considered to be the--

--fastest in the world. XXXXX It's not exactly slow on--

--asphalt ! XXXX You must "hand it to" these fellows, who
"play the game" in their spare time so as to--

--be in good trim for their work. XXXXX

And here's where a pilot "crashes !" Ha ! But they
"crash" sometimes ! Ha ! THEY DO !
