Picture:- How many of you young ladies who have to wear--  
--spectacles, wish you hadn't ! XXXXX Here's a way out of--  
--your difficulties ! XXXX You take the lense--  
--best suited to your eyesight, and insert it under the  
eyelid ! XXXX And there you are ! XXXXXX No more horn--  
rims !

They come out quite simply ! XXXX A little rubber  
sucker removes it as easily as taking off a pair--

--of spectacles ! XXXX I'll bet this is one aid to beauty  
a girl wouldn't apply in public !

It has the effect of brightening the eyes too, -  
providing you keep the windows clean !
