

2-548851

THE EARL OF DERBY - lays foundation stone  
of New Radium Institute at Liverpool.

-Lancashire-

---

Picture:- Around this foundation-stone which Lord Derby is laying, will arise a fine new institute dedicated to the solution of the great Cancer problem. XXXXX Unfortunately the weather spoilt the ceremony, but, there are some--

--who don't mind getting wet so long as they get pictures ! XXXXXXXXX

When the Earl declares the stone "well and truly laid", one of the most ambitious hospital reconstruction schemes--

--takes concrete form. XGEE When complete the building will be the most thoroughly up-to-date--

--Institution of its kind. XXXXX Liverpool and the surrounding districts are lucky to have in their midst, this powerful factor in the great war against the World Scourge. XXXXX May the best of good fortune smile on its activities !
