

MISS MEGAN TAYLOR - has been selected to represent Great Britain at Olympic Skating Championships in New York.

-London-

Picture.:- She's a little girl, with big responsibilities, for she is the--

--first to be selected to represent Great Britain in the Olympic Figure Skating Championships in New York, next February. XXXX Well done !

She hasn't reached the noon-tide of youth - she's not twelve yet ! XXXX Dad should be proud of her,--

--(Dad being Phil Taylor, the famous skater) - so Megan is truly--

--"a chip of the old block". XXXX When I was twice her age I tried to do as she is doing - and gathered the finest collection of bruises ever seen - or, no they weren't seen - but oh ! how they felt ! XXXXX Miss Megan is one of the few young ladies who prefer their ice underfoot, rather than in a glass, topped with nuts and syrup !

She's a "lassie from Lancashire" - perhaps that's why it is she spins as well ! XXXX (Did you "cotton" to that ?

It might seem that she's a bit young for the task she has taken on, but if youth combined with **ability** mean--

--anything, she'll "do the old country proud". XXXXX Thumbs up, Megan ! That's the girl !
