TITLE. FOOTBALL IN PRISON.

Picture.:- The Sing Sing football team plays a match against--

--the Naval Militia. They disguise this pony as a--
--zebra; plain pony wasn't good enough for a mascot.

They have got a footer ground to stir their hearts to kick hard and often. I suppose--

--some players are members of the team for quite a long while. They play well anyway. There's a good one up on the right, but the effort fails.

The crowd seems to be pleased about it.

Ready again for play ! And the ball is passed out to waiting players, Off they hurtle down the field.

Of course the authorities keep watch with their machine guns handy in case somebody gets--

--to fresh. Red End Hope is Captain of the prison team. His warning to his side was--

--no slugging in scrimages. By the way Red End Hope is there for fifty nine years he says.

Plenty of time to practice playing the game.
