CITY OF LIGHTS - The "gay city" makes  
light of things in view of approach of Xmas  
season.

-Paris-

Picture:- Paris by night, as seen from the pavements !  
Here is Pierrot trying to find his Pierrette !

Birds ! - - of a sort ! Then a visit--

--from Father Stork to Pierrot's house. Well it's his own  
fault !

Brilliant twinkling signs, to light the light-hearted  
city and attract customers to the Boulevards. This modern  
cubist design made an artistic--

--and beautifully tinted tableau. Perhaps you can guess  
its significance. I can't !

A device which nearly speaks for itself ! Cats  
speaking for themselves bring down a jugful of illuminated  
water. The lady's aim seems rather weak.

Of course one couldn't be gay without a jazz band.

Busy bakers making pies ! Light pastry this !

Others attending to the bottle and jug department !  
It represents the--

--preparation of a meal for Gargantua ! Here's wishing  
him a nice light supper !!
