

C-204851

PRINCE GOES BELOW - Prince George visits the  
Cakdale Colliery near Blackwood.

-Monmouthshire-

Picture. :- Following on the personal interest in  
industrial matters shown by the--

--Prince of Wales, his brother Prince George visits  
a coal mine in the Cardiff--

--district, in order to see mining conditions at  
close quarters.

His inspection was earnest and thorough and  
in order that unpleasant places--

--should not be barred to him, he donned dungarees  
and descended a --

--shaft over two thousand feet deep to see the--

--actual workings. Small wonder that Britain's  
loyalty to the throne is steadfast and unswerving.
